

STRATEGY.
RELIABILITY.
PEOPLE.
IMPROVEMENT.

BUILDING MAINTENANCE
EXCELLENCE EVERY DAY.

THE MAINTENANCE MINDSET

PRACTICAL IDEAS YOU CAN BEGIN
IMPLEMENTING THE VERY NEXT DAY.

From Reactive Maintenance to Engineering Excellence.

TUESDAY,
JANUARY 19, 2027

9:00 AM – 3:00 PM

EVERETT, WA
Venue: TBA

LUNCH INCLUDED

MORNING & AFTERNOON
REFRESHMENT BREAKS

MAXIMUM ATTENDANCE:
20 PARTICIPANTS

WORKSHOP TOPICS

MAINTENANCE PERFORMANCE METRICS

Learn how to develop KPIs that improve accountability and drive maintenance performance.

PREVENTIVE AND PREDICTIVE MAINTENANCE

Build PM and PdM systems that reduce downtime and increase equipment reliability.

ANNUAL MAINTENANCE PLANNING

Develop a strategic roadmap that aligns maintenance initiatives with company objectives.

5S & SPARE PARTS MANAGEMENT

Improve organization, reduce waste, and optimize spare parts inventory.

EQUIPMENT MODIFICATIONS & RELIABILITY

Discover practical engineering solutions that eliminate recurring equipment failures.

TECHNOLOGY & INNOVATION

Implement solutions that drive reliability and efficiency. Sensors, Cameras, Automated Reporting.

LEADERSHIP, COMMUNICATION & PROCESSES

Build stronger maintenance teams through better communication and proven processes.

WHO SHOULD ATTEND?

- Maintenance Managers
- Plant Managers
- Maintenance Supervisors
- Maintenance Engineers
- Reliability Engineers
- Maintenance Planners
- Maintenance Technicians
- Continuous Improvement Leaders
- Operations Leaders

COST

\$495
PER PERSON

Course Materials Included
